Statement of Qualifications

Established in 1997, Delta Industrial Services brings together a team that knows how to complete projects in the Arctic environment. The different divisions of our company pull together to facilitate your job in this remote and challenging location.

Division I: Welding & Fabrication Shop

- Steel erection, steel and aluminum welding, & tank fabrication services
- Spray-arc galvanizing & non-skid coatings
- 7200 square foot shop with overhead cranes, 8' x20' CNC cutting table, 5-axis CNC beam coper with powered rolls, double pinch 8' plate rolls, 12' brake, 100 & 120 ton iron workers and 12' diameter-capacity flanger
- Custom design and shop drawings available
- Certified welders

Division II: Equipment Rental Yard

- Earthmoving equipment
- Cranes, boom trucks & man-lifts
- Light & heavy duty trucks & trailers
- Generators, heaters & air compressors
- Concrete, carpentry, plumbing & electrical tools

Division III: Industrial Supply

- Safety and environmental supplies
- Custom hydraulic hoses and Aeroquip fittings
- Steel & rebar, industrial gases & welding consumables
- Lube oil, filters, and much more

Division IV: Carns Gravel Pit

- Sand & gravel sales, including delivery
- Certified Truck Scale

Division V: Water Treatment Services

- Fabrication of drinking water treatment skids, Arctic-attuned construction
- Custom design for particular source-water & application

Located centrally in Delta Junction, we offer premier industrial support services throughout the State of Alaska. Give us a call at (907) 895-5053 to discuss your requirements.
